RECENT PUBLICATIONS

- *Where Does the Noise Come From? Rectified Edge Attribution Patching for Accurate Circuit Discovery.* **Lasse Jantsch**, Dong-Jae Koh, Huisu Kim, Seonghyeon Lee, Young-Kyoon Suh. *Under Review 2026*
 - Identified three sources of approximation noise in Edge Attribution Patching (EAP) and introduced lightweight backward-pass corrections in LayerNorms, bilinear functions and MLP activations.
 - Corrections consistently improve the faithfulness and robustness of discovered circuits across multiple LLM families with minimal increase of compute.
- *Dual Path Attribution: Efficient Attribution for SwiGLU-Transformers through Layer-Wise Target Propagation.* **Lasse Jantsch**, Dong-Jae Koh, Seonghyeon Lee, Young-Kyoon Suh. *EMNLP 2026; Mechanistic Interpretability Workshop @ ICML 2026*
 - Developed Dual Path Attribution (DPA), a decomposition-based framework that traces information flow on the frozen transformer in one forward and one backward pass.
 - Achieved $O(1)$ time complexity with respect to the number of model components, enabling highly efficient dense component attribution while establishing state-of-the-art faithfulness.
- *FineCite: A Novel Approach For Fine-Grained Citation Context Analysis.* **Lasse M. Jantsch**, Dong-Jae Koh, Seonghwan Yoon, Jisu Lee, Anne Lauscher, Young-Kyoon Suh. In *Findings of the Association for Computational Linguistics: ACL 2025*.

EDUCATION

Kyungpook National University **M.Sc. Computer Science** — 03/2024 – 08/2026

Advisor: Prof. Young-Kyoon Suh

Korean GPA [4.3(↑) - 0.7(↓)]: 3.9 (Excellent)

University of Hamburg

B.A. Social Economics — 09/2020 – 02/2024

Thesis: An Assessment of Deep Learning for Sovereign Risk contagion modeling

German GPA [1(↑) - 5(↓)]: 1.31 (Excellent)

Study Abroad (South Korea) — 09/2022 – 08/2023

Focus: Development Economics, Society and Technology

RESEARCH EXPERIENCE

Saarland University Dep. of Language Science and Technology (Saarbrücken, Germany)	10/2026 Present	– Research Assistant Supervisor: Prof. Michael Hahn Mechanistic Interpretability, Length generalisation
MARS V Fellowship Cambridge AI Safety Hub (Oxford, United Kingdom)	06/2026 Present	– Research Fellow Supervisor: Francisco F. da Silva Non-intrusive Latent Steering, Activation Manifold
Kyungpook National University Computer Science Department (Daegu, South Korea)	03/2024 08/2026	– Graduate Research Assistant Supervisor: Prof. Young-Kyoon Suh Mechanistic Interpretability, Scholarly Document Processing
Kyungpook National University Computer Science Department (Daegu, South Korea)	07/2023 09/2023	– Research Intern Supervisor: Prof. Young-Kyoon Suh Hierarchical Topic Modeling, Scholarly Document Processing

INDUSTRY EXPERIENCE

Yoma Solutions Working Student (Remote, Germany)	10/2023 02/2024	– MLOps Engineer Automating Data Pipelines, Cleaning, Formatting, Automotive Industry
Kasko Working Student (Hamburg, Germany)	01/2022 06/2022	– Business Development Assistant Customer Outreach Campaign Management, InsureTech
bCyber Working Student (Hamburg, Germany)	12/2021 06/2022	– Technical Project Manager Accessibility on Metro Platforms, Bluetooth Beacons, Municipal Public Transport
Freelancer Self-Employed (Remote, Germany)	01/2021 12/2022	– Web / Mobile Developer Web and Mobile App Prototyping, Small Businesses

TECHNICAL SKILLS

Technical skills are listed in decreasing order of proficiency. Tools I am actively using at the moment are marked with (*).

- **Programming:** Python*, JavaScript, SQL, R
- **Machine Learning:** PyTorch*, Transformers*, scikit-learn
- **Interpretability:** NNSight*, Transformer-Lens*
- **MLOps:** Pandas, PySpark, Databricks
- **Web-Development:** React, Tailwind CSS, Astro, Next.js, Supabase
- **Tools:** Git*, Jupyter*, LaTeX*

FURTHER TRAINING

- BlueDot: Technical AI safety course, 06/2026 – 07/2026
- BlueDot: Technical AI safety project, 08/2026 – Present

AWARDS AND SCHOLARSHIPS

- KNU CSE Outstanding Thesis Performance Award, 2026.
- Brain Korea 21 Scholarship for Outstanding Graduate Students, 2024-2026.
- KINGS: Kyungpook National University International Graduate Scholarship, 2024-2026.
- Best Poster Presentation Award, Korean Computer Congress (KCC), 2024.
- Kyungpook National University Excellent Foreign Student Scholarship, 2024.

VOLUNTEERING

- International Student Ambassador – Kyungpook National University
Daegu, South Korea, 09/2022 – 02/2023
- Partnerships Manager – Techlabs Hamburg
Hamburg, Germany, 09/2021 – 09/2022
- Fundraising Campaign Manager (4th Grade Class Room) – Bhongolethu Foundation
Cape Town, South Africa, 04/2020 – 11/2020
- Primary School Teaching Assistant (Weltwärts Program) – Bhongolethu Foundation
Cape Town, South Africa, 09/2019 – 04/2020
